European explorers starting in the 18th century, Zambia was gradually claimed and occupied by the British as protectorate of Northern Rhodesia towards the end of the nineteenth century. On 24 October 1964, the protectorate gained independence with the new name of Zambia, derived from the Zam-bezi river which flows through the country. After independence the country moved towards a system of one party rule with Kenneth Kaunda as president. Kaunda dominated Zambian politics until multiparty elections were held in 1991.
