

We try to create a Table with a Caption by creating a Div with two children: a Div that is a caption and a Table. To tag this correctly, I set the outer Div role to Table, the inner Div to Caption, and the Table to null.

This table is tagged correctly.

0,0	0,1	0,2
1,0	1,1	1,2

This table has a caption and is tagged incorrectly.

Caption

0,0	0,1	0,2
1,0	1,1	1,2
